

PROFESSIONAL SUMMARY

Aspiring Data Scientist with a builder's mindset: turns messy raw data into predictive models and business-ready dashboards. Hands-on with **Python, SQL, and Machine Learning** — built projects like fraud/churn predictors and live analytics tools that simulate real business decision-making. Strong foundation across the full pipeline, from data cleaning to model deployment, with a focus on solving real problems, not just running numbers.

EXPERIENCE

- **Infotact Solutions Pvt. Ltd** 06/2025 – 08/2025
Data Analyst Intern Remote (Bangalore)
 - **Advanced Data Analytics:** Performed end-to-end analysis on **10,000+ rows** of sales data using Python and SQL, identifying **3+ key revenue trends** and optimizing customer segmentation.
 - **KPI Visualization:** Engineered interactive **Power BI dashboards** tracking **5+ critical KPIs**, providing real-time insights into profit margins to streamline stakeholder decision-making.

PROJECTS

- **NeuralSQL Agent – Natural Language to SQL Engine** | [Live App](#) | [GitHub](#)
Agentic AI · LLM Systems · Text-to-SQL Analytics
 - Built an autonomous **Text-to-SQL engine** using **Groq (Llama-3.1)** to convert plain English questions into executable SQL queries with **sub-1.5s latency**.
 - Implemented a dual-agent **Self-Healing loop (Generator + Critic)** that automatically audits SQL syntax and schema limits, auto-correcting errors before execution.
 - Achieved **95%+ query accuracy** with in-memory **SQLite** execution fallbacks to prevent cloud database locking and container crashes.
 - Deployed a fully containerized pipeline using **Docker** and **Streamlit Cloud** with real-time query telemetry and debug logging.
 - **Tech Stack:** Python, Groq API (Llama-3.1), FastAPI, Streamlit, SQLite, Docker, Pandas.
- **ZenithMind AI – Student Burnout Predictor** | [Live App](#) | [GitHub](#)
Machine Learning · Predictive Modeling · Mental Health Analytics
 - Engineered end-to-end burnout prediction system on a **1M+ row dataset** using **20+ academic and lifestyle features**.
 - Built and optimized **Random Forest & XGBoost** models, achieving **79% classification accuracy**.
 - Deployed a live **Streamlit** web app with **Docker**, delivering real-time risk predictions and wellness recommendations.
 - **Tech Stack:** Python, XGBoost, Random Forest, Scikit-learn, Pandas, NumPy, Docker, Streamlit.
- **Digital Payment Analytics Dashboard** | [GitHub](#)
Business Intelligence · Power BI · Customer Segmentation
 - Built **2 interactive Power BI dashboards** analyzing **650K+ transactions** worth **55M+ revenue**.
 - Implemented dynamic KPIs, slicers, and drill-down filters (Week, Quarter, Gender, Income) for real-time trend analysis.
 - Used advanced **DAX measures** (Revenue per Customer, Category Performance) to surface top revenue segments.
 - **Tech Stack:** Power BI, SQL, Excel, Power Query Editor, DAX.

TECHNICAL SKILLS

Languages & Query: Python, SQL, HTML/CSS
Data Science & Machine Learning: Pandas, NumPy, Scikit-learn, XGBoost, Random Forest, ETL, EDA, Feature Engineering, Hypothesis Testing, A/B Testing
Gen AI & Frameworks: Prompt Engineering, LLM, ChromaDB, SQLite, Text-to-SQL Engine, Vector Search
BI & Visualization: Power BI (DAX, Power Query), Looker, Microsoft Excel (XLOOKUP, Pivot Tables)
Cloud & Deployment: Snowflake(Basics), Docker, Streamlit Cloud, FastAPI, Render
Developer Tools: Git & GitHub, VS Code, Google Colab, MySQL

CERTIFICATIONS

- **Python for Data Science** | [Certificate](#) — NPTEL, IIT Madras
- **Professional Data Science Certification** | [Certificate](#) — Code with Harry
- **Web Development** | [Certificate](#) — Code with Harry

LEADERSHIP AND ACHIEVEMENTS

- **Technical Achievements** — Coding & Problem Solving *Active*
 - Practiced **150+ SQL problems** on LeetCode and HackerRank, strengthening Joins, GROUP BY, Subqueries, and Window functions.
 - Built and deployed **7+ end-to-end projects** addressing real-world problems across Predictive Analytics, Machine Learning models, Data Analysis and LLM-driven AI agents.
- **Core Team Member** — Institute Innovation Council (IIC), DCRUST
 - Organized technical events and fostered a startup and innovation culture on campus.
- **Recipient, Certificate of Excellence** — National Service Scheme (NSS), DCRUST
 - Awarded for outstanding leadership and execution of community development and social service programs.
